HUNS MUST ACCEPT OR REJECT TREATY BY FIFTEENTH OF MAY

Action of The Allies in Case of Rejection is Not Given to The Public

LAST ARTICLES OF PACT TO BE COMPLETED TODAY

U. S. May Become Mandatory for Stricken Armenia

Government Troops on Way to Put Down Communists

(By Associated Press) Germany will be forced either to accept or reject the allied peace terms by May 15th, according to reports printed in Paris. It is indicated that no reply is expected before May 6th, the peace conference being disposed to give the German government what it considers ample time in which to digest the terms and frame its reply.

What action would follow rejection of the terms has not been forecast in reports from the French capital.

It was announced at a meeting of the council of ten yesterday that various articles of the pact now are in the hands of the drafting committee and the remaining articles will be disposed of today.

It seems probable therefore that the treaty is in a fair way to be completed within a very brief period.

The question of the United States becoming mandatory for Armenia as the ancient province of Cilicia to the southwest is called, is again being considered at the peace conference. There seems to be a disposition on the part of entente powers also to ask this country to take over control of Constantinople, a suggestion which appeals to some members of the American commission.

Albania has appealed to Premier Clemenceau as president of the conference asking for confirmation of the complete independence of that country. There also is a willingness that the United States should assume control of government affairs until the country has organized its political system.

The communists are still in control of Munich but heavy forces of Bavarian troops are said to have begun an advance on the Bavarian capital, according to Berlin advices. It is not known whether a decisive battle has been fought. It is believed the city will not be attacked until the government has thrown a strong cordon of troops about it.

Under by 60 to 32.**

The Y. M. C. A. basketball team was badly defeated by the fast Circleville Athletic Club five on the local floor Wednesday evening. The final score stood 60 to 32 when the last whistle blew.

The game opened with Messick, of the visitors, caging two baskets in succession during the first 15 seconds of play. The playing of Messick was star-like throughout the game. He led with baskets, putting ten through the rings, five in the first half and a like number in the second period.

Friedman, one of the Circleville guards, was also there in basket shooting with seven field goals.

The game was fast and although outplayed, the Washington boys put up both a good defense and offensive during both periods.

Homer Smith, right forward for the "Y" suffered a torn ligament in his right leg during the game.

It seems that the Circleville team has almost an undisputed title to the independent central Ohio championship in view of the fact that the squad has defeated the best teams in this section. The lineup:

Mr. Dunning becomes more popular each night as a song leader and violinist. As a special number last night he played his own arrangement of "Home Sweet Home," on the violin.

The pastor preached one of the best sermons last night of his services, on the subject, "Sunshine and Shadows." He showed how the Christ-like virtues portrayed in Mary anointing brot the sunshine of joy, friendship and peace to the world, and how the traits of selfishness displayed by Judas brought the shadows of war, sadness and remorse as their logical conclusion.

The subject announced for this evening is "The Strength of Life's Quiet Moments."

Heligoland to be Dismantled, Is Decision Council of Four
All to Join in Invitation to German Delegates

(By Associated Press)
Paris, April 17.—The allied governments, according to The Temps, apparently have decided not to wait beyond May 15 for a definite answer from Germany as to whether she will sign or refuse to sign the peace treaty.

London, April 17.—The council of four, says Reuters Paris correspondent, has decided that Heligoland shall be dismantled and, as far as possible, destroyed.

Paris, April 17.—A meeting of the delegates of the 18 powers yesterday afternoon was presided over by M. Clemenceau, who communicated to them the date on which the Germans would be invited to be at Versailles.

One question considered was whether the invitation should be issued in the name of the council of five or in the name of all the allied and associated powers represented at the peace conference. The impression prevailing after the meeting was that all should join in the invitation.

The council of 10 met after the meeting of the delegates of the 18 powers and considered the procedure to be adopted at Versailles and also a number of collateral phases of the

peace treaty that had been referred to the foreign ministers.

The council was held at the foreign office on the call of the council of four. President Wilson was in attendance. The report of the foreign ministers showed that various articles of the treaty had been put into the hands of the drafting committee. The remaining articles are to be disposed of tomorrow.

Two questions, one involving a slight addition to the military terms and the other concerning the payment of allied soldiers in the occupied territory, were referred to the supreme war council.

The concern will deal in coffee, spices, extracts and similar articles. News of his success will be most pleasing to his great number of friends here.

CATTLEMEN OFFER STRONG PROTEST

Ottawa, Ont., April 17.—(By Associated Press Correspondent)—Western Canadian cattle raisers have made representations to the dominion government here, claiming that the sharp quarantine restrictions in the United States have decreased their revenue.

Statements prepared by the ranchers say the American quarantine has forced Canadian cattle men to dispose of most of their stock at Winnipeg where prices have averaged \$2 to \$3 a head less than at St. Paul, and that the quarantine has placed the livestock industry "in an intolerable position" in Manitoba, Saskatchewan and Alberta.

NO REPLY LIKELY UNTIL MAY 6TH

(By Associated Press)
Paris, April 17.—The entente delegates to the peace conference believe Germany will require at least one week after receiving the peace treaty before it can be digested and an answer prepared and also that the delegates will need about four days for travel between Berlin and Versailles and return. Consequently it is felt that it is hardly likely that Germany's answer will be available before May 6.

Austria-Hungary, Turkey and Bulgaria probably will be summoned to Versailles a fortnight after Germany to consider their peace treaties, which temporarily are overshadowed by the German negotiations.

Our Statesmen

When one stops to consider it fairly and impartially we Americans do expect a great deal of our public servants and give them very little credit, when all is said and done, for the good service they render and a great amount of censure for the mistakes they make.

Our executive officers and our legislators are only human beings taken from the ranks of the American people, have had but very little more advantage than people generally and yet we are inclined to attribute to them some sort of supernatural wisdom capable of performing the impossible.

We must remember that in this America of ours we have no aristocracy of birth. No man is born with his fortune assured and his course of study and life work mapped out for him so that he can specialize in his particular line of public service, with his education, associates, environment and all in harmony with destined duty, as in European nations.

Here men all start equal at birth—no one man has any great advantage over the other. All must obtain their knowledge in the great school of American every day life. If by natural ability, industry, perseverance and the pursuit of high ambitions and ideals some men stand out in front of their fellows and are chosen for public service, it is because of worth, not birth.

Here men must strive for what they secure and earn it, but it does seem, sometimes, that we should be more appreciative and less severe in our criticisms.

Our servants over in Europe now are seeking to solve the greatest problems that ever faced humanity and our own American servants leading in thought and deed, in the work of remaking the world. Yet we are impatient, critical and even, at times, abusive, that they are unable to accomplish the task at once.

Men are employed, actually paid, to do nothing but find fault with the work done and to point out what might have been done and what should not have been done. That doesn't seem exactly as though we appreciated public service and yet we do. That is only an American way—we are all accustomed to it—and yet it may, if carried to excess, result in harm.

Free Speech

Just how far our officials should go in the suppression of words and acts criticising the government and American institutions has always been a serious problem, but never as serious as it is at the present time.

Americans have always believed that faulty doctrines would perish in the bright glare of an enlightened public discussion and the more those wild preachings were talked about the quicker the end would be. Our history abundantly proves the correctness of that policy. It is not wise even now to attempt any abridgment of our constitutional guarantee of free speech. That right is sacred. It is one of the great anchors of the republic.

It should be clearly understood though that the right to criticize our governmental action and preach reform belongs only to American citizens. Our constitution does not guarantee that right to the wild anarchists from the old world. Their activities should be checked. No foreigner should be allowed to come here and under the protection of our government preach, in the public places, a doctrine which would destroy the blessings we all enjoy.

To Let Russia Alone

Premier Lloyd George announces that Great Britain is not going to intervene and send an army force into Russia to restore order and establish a government.

We believe the people of the war-weary world will, almost unanimously, welcome the announcement. It is time for the armies to come home, it is time for the world to resume the vocations of peace. We believe too that the great majority of people in every land are convinced that radicalism should be allowed to run its course in Russia. The fanatics who have been traveling about the world urging socialism and anarchy and preaching that the millennium was due should be given an opportunity to have the experiment worked out.

Russia has been in the grasp of the fanatics now for nearly two years. Law and human rights have so long been ignored that they seem but a memory, many thousand people are dying of starvation every day and gaunt famine stalks throughout the whole land in spite of the fact that Russia is the greatest food producing nation on earth, save the United States.

The world has had socialism and anarchy preached so long and so insistently that most people believe the time has come to let it run its course.

POETRY FOR TODAY

THE DUSK OF THE IMMORTALS

Along the silent gallery
And up the empty floors
Dim figures move from desk to desk,
And vanish through the doors,
And phantoms in the buckled shoes
And queues of long ago
Touch heads in confidential groups,
Or hurry to and fro.

No busy pages pass in haste,
No gavel sharply raps,
No oratory shakes the dome
With verbal thunderclaps,
No bills are molded into laws
Or eloquently spurned,
No long debates are lost or won,
For Congress has adjourned.

But after it disbands, the great,
Who wrought with heart and hand
The fabric of our liberty
Through storm and stress to stand,
Washington, Adams and Monroe,
With all their glorious train
Of patriots, return to walk
The halls of State again.

Like shadow in the dust beneath
The famed rotunda vast,
They come, a mighty company,
Immortals from the past,
To see if Freedom's bodyguard
Has kept these latter years
The high and holy covenant
She signed with blood and tears.
—New York Times.

MOVIES ENTERING BRAND NEW FIELD

London, April 1.—(By Associated Press Correspondent)—Aircraft development during the last few years has thrown open to the moving picture men an entirely new field. It may be some years yet before flying comes within the means of the ordinary person as a mode of travel but, through the film he may experience some of the artistic joys of aviation. Already a certain amount of aerial cinema photography has been carried out successfully—enough, at least, to measure its possibilities. In the near future, it is expected that magnificent mountain scenery will be photographed from aircraft, not only in Switzerland and in the United States, but in Abyssinia, the Himalayas and other less-explored regions of the world.

The whole of a wonderful flight from, say, San Francisco to London or from London to India or to Australia, may in time, be shown to the public.

LIBERTY MOTORS TO BE SOLD

Washington, April 17.—(By Associated Press)—One thousand new Liberty motors, ordered for the army air service before the cessation of hostilities and which are not needed now, will be placed on sale shortly by the sales and salvage division of the service. The motors are 12 cylinder Vee type, five inch bore, seven inch stroke, of 400 horse power at 1700 revolutions per minute.

The smaller the caliber the bigger the bore. This applies to men not firearms.

GREAT FOR EMERGENCIES

San Cura Ointment Should Be In Every Home.

There never was known a more reliable ointment than San Cura. In most every case where it has been used it has created astonishment. It drew a needle out of the foot of the daughter of Mrs. James Hitchcock, of Centreville, Pa., after the doctor had used his lance and failed.

It has great healing and antiseptic value. It possesses so much healing virtue that it is guaranteed by Blackmer & Tanquary to relieve any kind of piles, eczema, tetter, salt rheuma, boils, carbuncles, ulcers, all kinds of chronic sores, chilblains, and chapped hands, or money back.

It's a mighty handy remedy to have in the house in emergencies for bruises, burns, cuts or scalds, because it relieves the pain and is antiseptic and healing. It's a medicine chest in itself—a little family physician that is ever in demand. 30c, 60c and \$1.20 a jar at Blackmer & Tanquary's.

BEST SKIN SOAP

Is San Cura Soap, because of its great antiseptic and healing virtues. Use it regularly, and it will make the skin soft and velvety; will remove pimples and blackheads. It's the real soap for baby's tender skin, which mothers of infants should remember. 25c a cake at Blackmer & Tanquary's.

If your druggist does not have it send to Thompson Medical Co., Titusville, Pa.

EXTRA WEAR FROM SHOES

"A year ago I had my shoes resoled with Neolin Soles. The soles are still in service, and it looks as if I would not be able to wear them out, because the uppers are going first," said W. C. Dickinson, of New Haven, Conn.

Good repair shops everywhere carry these tough and durable soles. See for yourself how long they last by having them put on a pair of old shoes. Or if you are in need of new shoes, buy them with Neolin Soles. They cost no more than shoes that give less wear, and you need fewer pairs. They come in many styles for men, women, and children.

Neolin Soles are created by Science to be comfortable and waterproof, as well as long-wearing. They are made by The Goodyear Tire & Rubber Co., Akron, Ohio, who also make Wingfoot Heels—guaranteed to outwear all other heels.

GEARED TO THE ROAD

News of Interest to Women

Mrs. Frank E. Haines extended the hospitality of her commodious country home Wednesday afternoon for one of the most noteworthy gatherings of the year of the Sugar Grove W. C. T. U. Each member was given privilege of bringing a guest and there were half a hundred women comfortably seated for an especially prepared program in charge of Mrs. Elva Post.

The President, Mrs. Pearl Darling-ton, gave a short talk, in which she explained the special purpose of the meeting to interest the Union and their guests in the French orphan, the Sugar Grove W. C. T. U. is supporting and to take a silver offering for the child's support during the coming year.

A beautiful vocal duet, sung by Mrs. Maude Cockeril and Mrs. Rella Silcott was followed by a poem dedicated to a French Orphan, read by Mrs. Eva McCoy. The poem was original, written by Mrs. Darling-ton, and the sympathy of its sentiment and smoothness of the rhythm drew from the listeners complimentary comment.

Miss Cleo Besch played a pretty piano solo. Mrs. Rella Silcott gave a most interesting paper on "Community Singing and Popular Songs of the Day." A delightful reading by Mrs. Marguerite Beck was followed by a splendid paper on "My Part in It," in which Mrs. Frank Haines dealt with problems of the day and the necessity that each person ask themselves honestly, "What is my

part in each" and do the best she can to fulfill her part.

The County President, Mrs. Alice Taggart, was an appreciative guest and made an interesting and inspiring talk, giving an account of the W. C. T. U. from the beginning and presenting the Centenary and Jubilee movements of the W. C. T. U.

Three new members were added to the roll, Mrs. Emma Burdette, Mrs. Gladys Manuel, Miss Margaret Templin.

The social hour was one of much congenial pleasure, the hostess assisted by Mrs. Elva Post and Mrs. Dulcie Elliott, serving a most delectable luncheon.

The Young Women of the Westminster Guild enjoyed a picnic "spread" and delightful social hour as well as their usual study period at the home of Mrs. Austin F. Hopkins, Wednesday night.

The "Spread" proved to be an elaborate dinner served in the big dining rooms of the home with all the accessories of fragrant spring flowers and dainty appointments.

Covers were laid for twenty and everything passed off with admirable smoothness.

Following the dinner the President Mrs. Grace McHenry, called the business session to order. Miss Alta Sprenger was the leader and the new Home Mission Study Book was taken up.

Interesting reports from the spring meeting of the Chillicothe Presby-terial were made by Misses Blanche Tullis and Grace McHenry.

A family dinner was greatly enjoyed at the home of Mr. Dave Ferneau, on Broadway, in honor of Corp. Frank Ferneau, who received his discharge from service at Camp Sherman Sunday.

The four brothers, Dove, Glenn, Jerry and E. O. Ferneau, motored down to the Camp to bring him home and the father and all the sons were present at the dinner, the only sister, Mrs. Jess Ewick, the one absent member of the family.

April showers did not prevent a very large attendance for the monthly meeting of the Woman's Mission-ary Society of the First Presbyterian church, Wednesday afternoon, when fifty women assembled at the home of Mrs. G. W. Blakeley. Entertaining with Mrs. Blakeley were Mesdames W. B. Gage, Rell G. Allen, Mary Rodgers, Charles Briggs, Roy

McClure, Arta Sutherland, Mary Cut-ting, J. A. Worrell, L. P. Howell, J. L. Rothrock, Albert Barney, E. A. Elles, Charles Persinger, H. M. Kingsbury and C. L. Clemmens.

The cheer of the interior presented most inviting contrast to the gloom outside. For the first time since its refinishing and redecorating, Mrs. Blakely threw open her home to guests.

The large rooms and the furnish-ings have been completely done over the wood work finished in ivory and the furniture upholstered in rose velvet, matching rose velvet hang-ings, and exceedingly handsome. The delicately shaded mural tints formed an effective background and tulips and spring flowers added a harmo-nious note of color, and entire sur-roundings added immeasurably to the pleasure of the afternoon.

Mrs. Austin F. Hopkins, President, in the opening business session, pre-sented the New Era Movement in its appeal to the Missionary Society and the members responded liberally the complete report not yet made up.

The "Negro" and "Africa" were the month's topics, with Mrs. M. E. Hitchcock leader. Mrs. Frank S. Jackson discussed "His Part in the Commonwealth," taking up the sub-ject along the line of the negro's courage and patriotic loyalty and concluding with a plea for justice and appreciation of this loyalty.

Mrs. J. L. McWilliams contributed an exceptionally fine paper on "Mir-acle of African Missions" Africa is called the Dark Continent—a better name would be the continent of opportunity. In no country has the mis-sionary work been so difficult or re-sults so great. The largest church in the world is located there.

"The Call of the Dark Forest" was the title of an entertaining leaflet read by Mrs. Wm. M. Mitchener.

Interesting reports from the Chillicothe Presbyterial, held in Green-field last Saturday, were given by Mesdames Barnes, Gage, Hopkins and McWilliams.

The postponed two days meeting was condensed into a one day's ses-sion. The various reports of the se-cretaries were encouraging and the outlook bright. Especially appre-ciated was the report of the Treas-urer, Miss Anna M. Welsh, who, having sustained a fractured hip nearly a year ago, was too lame to permit the crutches which she is still using to interfere with her making a personal report. Miss Welsh has been a wonderful secretary for 22 years. She was again elected and provided with an assistant for the New Era work.

Mrs. E. W. Patterson, of Greenfield was re-elected President; Mrs. G. M. Ustick of this city; First Vice; Mrs. Austin F. Hopkins, Home Secretary and Mrs. W. Q. Kinkaid, of Bloom-ingburg, Educational Secretary.

A most tempting collation was served after the program and the guests lingered, loath to leave the attraction of the elegant home and the sociability of the hour.

Many Washington friends share in the interest of the announcement that Miss Frances Blackmore, daughter of Mr. and Mrs. Jesse Blackmore formerly of this city, now of Chillicothe, has given up her course in trained nursing at Grant Hospital, Columbus, to wed Mr. Earl Dennis, of Delaware the first of May.

The bride-elect is a bright and attractive young girl, whose departure from here was much regretted.

Mr. Dennis is travelling salesman with the Food Commission House of Andrews Bros., in Columbus.

Miss Blackmore has been visiting at the home of Mr. J. W. Duffee for several days, leaving tonight for her home in Chillicothe.

Mrs. Calverna Williams returned Wednesday night from Camp Sher-man where she visited her son, Sergt. Ed Williams, recently returned from overseas.

Mrs. C. S. Haver left Thursday for Indianapolis, Ind., to visit her par-ents.

Mr. Joseph Warneck is quite ill at his home on Paint street.

Pvt. Charles Radabaugh of a Mo-tor Truck Co., received his discharge from Camp Sherman, Tuesday, and returned to his home in this city.

Joseph McDonald came home from St. Mary's Academy at Dayton, Wed-nesday evening, to spend the Easter vacation.

Mrs. Stephen Hickel, arrived from Hillsboro Thursday to spend several months with her daughter, Mrs. Fred B. Creamer.

Mrs. Lottie Burnett received a telegram Thursday morning, from her son, Edward L. Burnett, saying that he had arrived at Camp Merritt, N. J. from overseas.

MINING IS MORE DEADLY THAN WAR INSISTS EXPERT

One Million Employed in and About Mines of Great Britain

160,000 Accidents Each Year is the Average

London, April 17.—(Correspondence of the Associated Press.)—Mining is more deadly than war, declared John Robertson at the government's inquiry into the coal industry of Great Britain. Robertson is chairman of the Scottish Union of Mine Workers.

"The extent of the danger to the miner is not realized even in the mining districts," he said. "There are 1,000,000 persons employed in and about British coal mines. In the ten years from 1907 to 1916 there was a total of 12,400 men killed or an average each year of 1,240. In the last twenty years the yearly average of accidents was about 160,000 or a total of about 3,250,000. The miner is always on active service; he is always in the trenches."

It was stated that in one mining district there were 2,768 persons living more than five in a single room, 1,237 more than six to a room, 510 more than seven to a room, and 190 more than eight to a room.

"Think of the conditions in these single rooms" the witness continued. "Pit clothes drying in front of the fire in the same room where the family sleep; sickness, accouchment. How can the children have a chance after the woman has spent her day cleaning? The miners come home from work, and it has all got to be done over again. Do we wonder that the women folk lose heart?"

BELGIUM WILL NOT TRY KAISER

Paris, April 17.—The Belgian delegation to the peace conference today informed the correspondent that Belgium had not been officially requested by the council of four to bring the former German emperor to trial, and that the Belgian government would feel obliged to decline to take the step even if there were any request for such action.

The Belgian delegates hold that any action should be taken by a commission representing all the associated powers. The official Belgian view, it was said, is that the former emperor cannot be arraigned for any act preceding or coincident with the declaration of war.

AT TRAINING CAMP

Herb Pennock

Herb Pennock, star southpaw pitcher of the champion Boston Red Sox warming up just before the start of one of the pre-season games between the Sox and the Giants at Gainesville, Fla. Pennock's service with Uncle Sam's navy kept the southpaw in excellent condition, as was proven in his first workout at the camp. While in the service Pennock took part in several baseball games played in Europe. He twirled for the navy team in the historic contest against the army on July 4, last, in London.

AD. A. WENDEL IS OUT FOR SHERIFF

The Norfolk (Va.) Ledger Dispatch of recent date announces the candidacy of Ad. A. Wendel, former well known resident of this city, for the position of Sheriff of Norfolk county.

In making the announcement the Dispatch says in part:

"Mr. Wendel is a prominent citizen of the county and has been identified prominently with timber in duties, agricultural matters, especially in connection with the drainage of the Dismal Swamp section of Norfolk county."

"On July 1st, 1917, upon the recommendation of Governor Stuart, Mr. Wendel was appointed by President Wilson a member of the Norfolk Co. Local Draft Board, the largest body in the state, numbering nearly 15,000 registrants. During the entire period of the war and for several months after the armistice, Mr. Wendel gave practically his entire time to the enormous and self-sacrificing work of the local board. It is considered fortunate indeed, for the electorate that men of the standing of Mr. Wendel offer themselves for public affairs."

SHIPPING BOARD METHODS AROUSE THE NORWEGIANS

Disagreement over Shipbuilding Contracts Causes Bitterness

Christiania, April 1.—(By Associated Press Correspondent.)—Failure of America to come to an agreement with Norwegian shipbuilders, regarding the requisition of shipbuilding contracts placed in America, which has for two years caused a steadily increasing bitterness among business men is now coupled with distrust as to the American government's methods of dealing with small nations and is unanimously and severely criticized by the whole Norwegian press.

In answer to the criticism, the American legation publishes a statement defending the United States Shipping Board's unwillingness to meet the Norwegian demands for payment of contracts at market value. It is stated here that the American shipping board offers to pay only for material and steel on hand when the United States government requisitioned the ships under construction.

The Morgenbladet, whose editor is a member of Parliament, denounces American methods and declares that America should pay full market value of the whole contract, especially as Norway's rights are, he said, protected by the treaty of 1827.

It is asserted that the \$12,000,000 offered for settlement only covers half the cost of direct initial outlay by Norwegians, and only a quarter the cost entailed at the time of requisitioning the shipbuilding contracts. This, it is charged, is contrary to the way America settled for British contracts requisitioned in the United States.

"Although America can force her decision she cannot prevent Norwegians from calling this procedure unfair and unbusinesslike," the Morgenbladet adds.

GERMANY TO GET BIG WINE TRADE OF THE FRENCH

Prohibition in America Upsets Wine Producers' Plans in France

Paris, March 18.—(Correspondence of the Associated Press.)—American prohibition upset France's wine trade. The American market for wines closed, the French exporters of champagnes and other wines seek another market. This will be found in Germany, according to Lucien Fontaine of the Paris Chamber of Commerce.

"If there is not sufficient market in Germany, we can go to Holland, Denmark, Austria and the Balkans," said M. Fontaine. "We can find the market for the suppressed American outlet in Europe, I think."

"The exportation of wine is not going to be such a hard problem to solve at this time for we have not been producing nearly as much wine during the war as we were before it. 'What are Americans going to do?' asked M. Fontaine of the correspondent. 'You know that all these soldiers will miss the French wine in America. Do you not think that Americans will notice the situation worse than the French? Perhaps all these soldiers had better stay here, eh?'"

Prohibition of the importation into America of alcoholic beverages will deprive France of commerce which reached in 1916 more than \$3,000,000. Before the war, the business was valued annually at more than \$2,000,000.

MADE URGENT PLEA FOR FOOD SUPPLY

Stockholm, March 1.—(By Mail).—One request that America should send food to Germany was drawn up here by a delegation of medical scientists representing two hundred Swedish physicians who asked the American Minister, Ira Nelson Morris, to forward it to President Wilson.

The petition was supported by the report of Professor J. E. Johansson, a nutrition expert, whose investigation of the German situation has

To Wilbert Robinson, of the Brooklyn Nationals, goes the distinction of being the first major league manager to predict success for his team in the 1919 campaign. "Barring accidents, which may cripple me," declared Uncle Robbie, "I certainly have a first division club, and if I solve my first base problem Brooklyn fans may see another pennant floating over Ebbett's Field next Fall. The team is a far stronger one than appears on paper, and it will be right in the hunt for the bunting." October will tell whether Uncle Robbie is anything of a baseball prophet or not.

been in progress since 1915. He declared that tuberculosis in Germany has increased 100 percent. Basing their argument on this statement, the Swedish doctors in their petition said serious epidemics might be expected to spread through the world from Germany unless food was soon supplied to the German people.

Since the Swedish petition was presented to Mr. Morris, Germany has agreed to surrender her merchant ships to the Allies and the latter have promised to send food to Germany.

RED BLOODED PEOPLE LIVE THE LONGEST

Red blooded people retain their youth and vigor until late in life because red blood ages slowly.

A child with impure blood seems old, while an old man with pure red ironized blood seems young.

Impure blood clogs the system with waste matters, rapidly ageing body, mind and spirit.

Pure blood is red blood, rich in Iron and Phosphates with power to rid itself of waste matter and able to carry life-giving oxygen to every cell and nerve. It makes both young and old bright, happy, keen, and interested in life. This is the blood you need, every day of your life, the rich red blood made by pure food, fresh air, restful sleep and "Phosphated Iron" from the red blood and nerve builder.

Phosphated Iron enriches your blood and nerves, putting them in shape for work. Improves your color, increases your appetite and gives you strength, vigor and power to enjoy both work and pleasure, makes you feel like doing things once more.

Phosphated Iron is prescribed by leading doctors for all who are worn out, run down, nervous, weak and thin blooded people in all walks of life, they have learned to depend on it for honest results.

Special Notice—To insure physicians and their patients receiving the genuine Phosphated Iron, we have put in capsules only, so do not allow dealers to substitute pills or tablets, insist on the genuine, in capsules only.

THAT DOLLAR

An editor of a Church paper, after working over his list of delinquent subscribers until he was weary, fell asleep. He dreamt that he was a boy again back in the district school, that they were having an entertainment, and that his part was to recite "The Old Oaken Bucket." When it came his turn he spoke out in his sleep, but this is what his stenographer heard him say: "How dear to our heart is the old silver dollar, when some kind subscriber presents it to view; the Liberty head without necktie or collar, and all the strange things which to us seem so new; the wide spreading eagle, the arrows below it, the stars and the words with the strange things they tell; the coin of our fathers, we're glad that we knew it, for some time or other 'twill come in right well, the spread eagle dollar, the star-spangled dollar, the old silver dollar we all love so well." —The Church Advocate.

ALLIES TO SEND FOOD TO RUSSIA IS LATEST PLAN

Bolsheviks Must Stop Fighting if They Obtain Outside Aid

France Objects to Step but is Expected to Agree

(By Associated Press)
 Paris, April 17.—An agreement was reached yesterday by the associated powers to send food to Russia under neutral control, but the French representatives made several reservations which will be considered today. It seems likely, however, that the objection will be overcome and that the relief work will be pressed rapidly. The agreement stipulates that the Bolsheviks must cease hostilities. The relief work will be in charge of a commission headed by Dr. Fridtjof Nansen, the Norwegian explorer. The other members will be citizens of Scandinavia and Switzerland.

The revictualing plan is not acceptable to MM. Bakmeteff, Sazonoff, Lvoff and other Russians forming the commission representing the Kolchak and Denikine governments, who regard it as recognition of the Bolshevik government, as giving the Bolshevik authority to spend money from the Russian treasury. But the members of the council took the position that those of the better class in Russia, who are being starved by the Bolsheviks, must not be allowed to die, as they are necessary for the regeneration of the country.

The various political objections to sending food to Petrograd and Moscow have gradually been weakening recently, and the members of the supreme economic council take the position that the millions of Russians about to starve must be fed on

JAP TENNIS STAR

Ichiya Kumagee

Ichiya Kumagee, the noted Japanese tennis star, defeated Vincent Richards, the boy champion, in the semi-finals singles in the North and South tennis tournament at Pinehurst, N. C., according to a report received here. Richards started off like a winner in the match against Kumagee, taking the first three games in the first set. From this point the Japanese played faster tennis and won six games straight in the first set and two in the second set. He kept the advantage all the way in the second and won, 6-2. This is the second win for Kumagee in the three times he has met Richards.

SEAWEED USED FOR BUILDINGS

London, April 1.—(By Associated Press Correspondent)—A novel use has been found here for seaweed. Combined with crushed slag and other heretofore neglected waste mineral products, it is used to make a kind of concrete out of which are being fashioned building bricks and blocks. The seaweed acts as a binding and strengthening element.

Arrangements are being made to put up a large number of houses composed entirely of these blocks, and it is predicted that the material, owing to its cheapness, will aid in solving the housing problem.

Not only the foundations and walls, but the doors, window frames and mantel pieces are to be constructed of the new concrete. The houses are to be made in sections and bolted together. The window frame is a new idea in itself. The glass, in one large pane, slips into a slot and the edges of moulding are then turned over, so as to grip it. To mend a broken window will be a simple matter and will not require the services of a glazier.

It is said that dwellings made of the concrete will be warm and thoroughly dampproof.

EXPLORER WOULD USE U-BOATS FOR REACHING POLES

Dirigible Balloon Next in Importance and Airplane Last

(By Associated Press)
 San Francisco, Cal., April 17.—In the way of modern methods of transportation as a means of reaching the North Pole, the submarine comes first in the estimation of Vilhjalmur Stefansson, the Arctic explorer. Next comes the dirigible balloon, and finally the airplane.

"The submarine appears to me to be a perfectly practicable way of reaching the pole as well as a comfortable way for one could carry all the necessary comfort," said Mr. Stefansson on his recent visit here while discussing arctic exploration with friends. "I seldom have seen a stretch of ice extending more than thirty miles without coming to open water. Under the circumstances there never would be any difficulty in the matter of getting to the surface. Also the navigator would be assured of calm water when he came up in these ice hemmed bits of water."

"The submarine already has been used for getting to ice bound ports by passing under the ice. They may be provided with wheels so as to go along the channel bottom. A large submarine will only weigh about 600 pounds on the wheels when submerged in this manner. In constructing an under ice submarine the periscope and much of the above deck construction would be done away with and in place of it would be a deck coming to a ridge similar to a roof which would cut through thin ice when coming to the surface. Ocean ice is mushy and I have seen a whale come up through a thickness of six or seven inches of ice."

ALBANIA ASKS INDEPENDENCE

Paris, April 17.—The members of the Albanian provisional government representing that country at the peace conference, have addressed to the president of the conference a letter asking for the confirmation of the complete independence of Albania.

Cancellation of secret treaties regarding that country, rectification of the frontiers between Albania and other Balkan states, according to ethnic principles, and naming of a power to supervise the government as mandatory are also asked for.

Before sending the letter the Albanian delegate headed by Mehmed Koritza, foreign minister in the provisional government, presented the Albanian case to the American delegates. He pointed out to them that no armed force was required; nothing but counsel sympathetic supervision was wanted.
